SUMMARY

I'm a Full Stack Developer with over 2 years of hands-on experience in JavaScript, particularly with Next.js, React and Node.js. I have a solid grasp of both SQL and NoSQL databases, and I've built real-time applications and innovative projects that reflect my dedication to quality and scalability.

WORK EXPERIENCE

Front-End Developer(Reactjs) / Novix Code - Internship

9/2024 - Present

Responsibilities :

- Optimized front-end performance.
- Maintained and updated code.
- Conducted testing and debugging.
- Documented workflows and codebase.

Mentor / Code Academy

9/2023 - 8/2024

Responsibilities :

- Guided 10+ students through full-stack development projects.
- Provided feedback on 20+ coding assignments and projects.
- Conducted 15 one-on-one mentoring sessions.
- Assisted students in debugging and optimizing their code.
- Developed and delivered 5 instructional materials.
- Monitored student progress and provided support.

Front-end Developer(Nextjs) / Tanta University

3/2023 - 6/2024

Responsibilities :

- Collaborate with team and stakeholders.
- Design UI/UX wireframes and prototypes.
- Implement UI/UX designs.
- Ensure responsive interfaces.
- Develop front-end architecture.
- Test and debug.
- Maintain clean code

Full-stack Developer(MERN)/ Freelancer

3/2023 - Present

Responsibilities :

- Collaborated with 10+ clients on project requirements and plans.
- Developed UIs using HTML, CSS, JavaScript, React, and Angular for 15+ projects.
- Built server-side logic, databases, and APIs with Node.js, Express, and Prisma for 10+ apps.
- Designed and managed databases for 5+ projects, ensuring data integrity and security.
- Wrote and executed tests, improving code quality and boosting performance by 20%.
- Deployed applications and provided maintenance for 10+ projects.
- Updated clients on progress and gathered feedback, achieving a 95% satisfaction rate.

PROJECTS

Blog Post Application / [Live Demo](#)

8/2022

- **Technologies:** Reactjs, Express, MongoDB, Cloudinary, HTTP-Only Cookie
- **Description:** Built a blog post application enabling users to create, edit, and delete posts with multimedia uploads via Cloudinary. Ensured a smooth user experience with a responsive interface and efficient data handling.

Chatting Application / [Live Demo](#)

3/2023

- **Technologies:** Reactjs, Redux, Express, MongoDB, Cloudinary, Socket.io
- **Description:** Developed a real-time chat application with instant messaging, user authentication, and chat rooms. Ensured seamless communication and efficient data handling.

Personal Website / [Live Demo](#)

5/2023

- **Technologies:** Reactjs, Redux, GSAP Animations
- **Description:** Developed a responsive website to display personal projects and skills. Designed an intuitive layout with interactive elements to enhance user engagement and showcase expertise effectively.

Bowling Management System / [Source Code](#)

9/2024

- **Technologies:** Nextjs, Next Router Handler, Prisma ORM, Sqlite
- **Description:** Built a system to store and manage bowling games, allowing users to start new games and filter data by day. Ensured efficient data handling and a user-friendly interface.

SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript.
- **Front-End Development:** Next.js, React, Vue.js, HTML, CSS, SASS.
- **Back-End Development:** Node.js, Express.
- **Databases:** MongoDB, SQL, SQLite, Prisma ORM.
- **Real-Time Applications:** Socket.io.
- **Cross-Platform Development:** Tauri.
- **Version Control:** Git.
- **Other:** Cloudinary (for media uploads), Data Engineering.

EDUCATION

Bachelor of Science in Computer and Data Science
Tanta University

8/2020- 8/2024
